

## Trimaco Standard Masking Film

Trimaco Item Numbers:

67290 72"x90'

69990 99"x90'

62480 24"x180'

64880 48"x180'

Material Description: 100% High Density Polyethylene Homopolymer (HDPE)  
- translucent

Pre-folded, high-density, nonporous film for paint masking and paint overspray protection. Treated to attract overspray and reduce flaking for multiple coats. Solvent resistant and may be used with lacquers.

Physical Property	Unit	Standard Masking Film	
Thickness	Micron	10	
Color		Translucent	
Corona Treatment	Dynes	36	
		MD	XD
Tear Strength ASTM D624-00e1	Max load lbs.	.71	.43
	Resistance lbs/in of width	2120	1375
Tensile Properties ASTM D882-02	Max load lbs.	3.24	2.38
	Tensile Strength	9251	7023
	Elongation %	174	535

These are typical values expected for the aforementioned product only. These typical values are not to be considered a specification for these properties.
