

PRODUCT SPOTLIGHT

TOOLPRO Aviation Snips

Part #	Size
TP02161	Left
TP02162	Straight
TP02163	Right

ToolPro Aviation Snips are ideal for cutting steel studs, ceiling grid, and sheet metal. They are constructed from forged steel for exceptional strength and durability. They feature a one-handed latch release for quick use and a blade adjustment bolt to keep them working longer.

- Serrated blade for clean cuts
- Cuts 18-Gauge cold rolled steel or 23-Gauge stainless sheet steel
- Colored handles are easy to identify in a toolbox
- One-handed latch release
- Compound leverage makes cutting easy
- Meets or exceeds ANSI/ ASME B109.16-1985
