TOOLPRO

3 in. Corner Roller and Applicator

#TP07020

- The perfect hand tool for applying drywall mud to corners and creasing the tape in one operation.
- Universal threaded handle is molded onto heavy duty steel frame
- Fits any standard threaded extension handle
- Beveled roller head presses hard into the corner and creases the tape well
- Roller core will not absorb the material being applied
- Synthetic lambswool cover will not shed
- 5-Packs of replacement covers available and easily replaceable

3 in. Corner Roller Replacement Covers (5-Pack)

#TP07030

TOOLPRO

Adjustable Corner Trowel

#TP07010

- Allows you to leave exactly the right amount of compound on inside corners
- Works well on vaulted and off-angles
- Corner angle adjusts from 88° to 150°
- Each blade is 3 in. wide and 5 in. high
- Durable stainless steel won't rust
- Blades can be easily disassembled and cleaned by removing the single wing nut

TOOLPRO

Flexible Black Rubber Corner Knife

#TP08020

- Use hand-held or slip fit on any 1 in. extension handle for higher reach
- Perfect for finishing corners greater than 90°, including bullnose
- Rubber blade is 6-1/2 in. wide
- Durable black rubber material is easy to clean and long-lasting
- Metal pressure bar is molded into the blade
