Sanding Discs (25-Pack)

Part #	Sanding Grit
TP10800	80
TP11000	100
TP11200	120
TP11500	150
TP11800	180
TP12200	220
TP12400	240

25-Pack consists of 5 inner packs
containing 5 discs each

The Hook and Loop system for attaching abrasive paper to the foam backing is preferred by many. It is faster to change discs and it is more economical than the adhesive method. It also provides maximum adherence and a smooth, level sanding surface.

- Hook & Loop attachment system used in conjunction with a back up pad is faster to change discs and more economical than adhesive construction
 - Designed to work with all drywall sanders including Porter Cable, Flex and Aleko
- Heavy duty paper backing and rugged hook and loop system meets heavy demands of commercial applications
- Highest quality anti-clog aluminum oxide grit reduces loading and promotes maximum dust collection, also gives longer life and a more consistent surface finish
 - Coarse 80 Grit for leveling imperfect surfaces, removal of material, and heavy sanding
 - Medium 100 and 120 Grit for light removal and general purpose smoothing of surfaces
 - Fine 150 and 180 Grit for finish sanding and cleaning of bare surfaces
 - Very Fine 220 and 240 Grit for surface conditioning and preparation
 - Each pack contains 5 inner packs containing 5 discs each
