

TOOLPRO

PRODUCT OVERVIEW

12" TAMPICO STYLE STIPPLE BRUSH | TP08804

Built for ceiling texturing, this brush helps form decorative patterns in compound while maintaining control across the work surface.

FEATURES

- Ready to use straight from the package
- Pre-cut and pre-formed design
- Creates professional starburst ceiling patterns
- Polypropylene block with a tampico fill
- Leaves clean, consistent impressions

HOW TO USE

1. Add some water to the drywall compound, and mix thoroughly to your preferred consistency.
2. Roll or spray the drywall with compound in two directions to get an even coat.
3. Apply compound to the brush. Then bump it repeatedly onto the section of coated drywall until you achieve your desired pattern.
