TOOLPRO
18 in. to 30 in. Adjustable
Height Aluminum
Collapsible Step-Up Bench

TP88051

With its broad 9-1/2 in. top step, the ToolPro Collapsible Step-Up Bench is a sturdy, safe platform for working off the floor. It is constructed of high strength aluminum alloy extrusions fastened with zinc-plated steel fasteners for long life. This style of platform has been popular with professional interior construction professionals for decades. When used for hanging drywall they are usually bought in pairs.
